

# Library Holdings Per Student

SFU Library Holdings per student are low; historically, the collection has been inadequately supported.

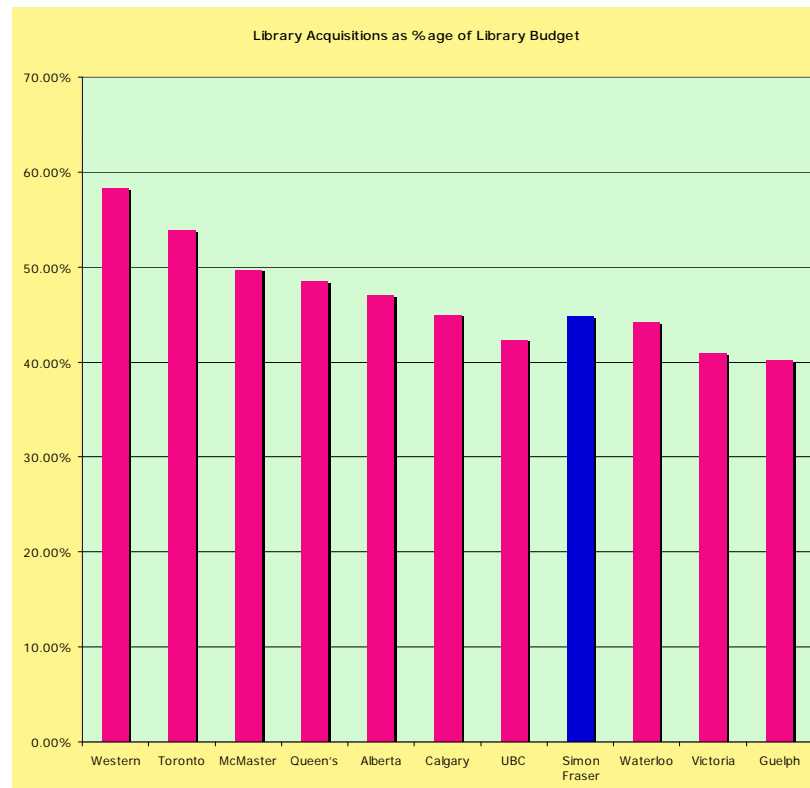

## Library Expenses as a Percentage of Operating Budget

This is being rectified by healthy Library operating expenditures as a percentage of the University's operating budget.

## Acquisitions as a Percentage of Library Budget

The Library's relatively high expenditures in acquisitions (print and electronic) is leading to an improvement in the historically inadequate collection

## Library Activities (2003/04)

SFU Library's other expenditures are providing greater support for students in:

- Instruction
- Reference (online, in person)
- Book loans
- Electronic journals
