

Celebration of SFU Authors

November 5, 2008

SFU

Message from the University Librarian

The Celebration of SFU Authors has now become an annual event. We use this occasion to recognize SFU authors who have helped establish the University's reputation as an interdisciplinary institution dedicated to scholarly excellence. SFU's authors are 'Thinking of the World' in the broadest sense. Original or translated works are in English, French, Hungarian, Russian, and numerous other languages. Subject matter covers the gamut from education to engineering, chemistry, mathematics, history, literature, psychology, religion, and prize winning creative writing. The range covered by SFU authors is truly breathtaking.

SFU Library works to be an active partner in research and teaching at the University. We have established a program to raise awareness about issues such as authors' rights and copyright transfer agreements to ensure that SFU authors retain control of the distribution of their research results without jeopardizing their publishing record. In addition to purchasing and licensing print, electronic, and other collections, the Library hosts and supports peer reviewed journals through the Open Journals System software, supports colloquia devoted to scholarly communication, and provides an institutional repository to house permanent copies of research results.

In this spirit, we are proud to host this event and to congratulate all our SFU Authors on their publications.

A handwritten signature in black ink, reading "Lynn Copeland". The signature is written in a cursive, flowing style.

Lynn Copeland
University Librarian and Dean of Library Services

This list comprises publications by SFU students, staff, and current and retired faculty from July 2007 to June 2008.

We regret any discrepancies or omissions.
