

Celebration of SFU Authors

November 4, 2009

Message from the University Librarian

Welcome to the annual celebration of SFU authors. SFU authors' works enhance the university's reputation as an interdisciplinary institution dedicated to scholarly excellence. This year we are celebrating almost one hundred publications, doubling last year's contributions. They cover a wide range of languages and subjects, from traditional academic topics in science and humanities, to improving airline service through employee engagement. SFU authors are truly 'Thinking of the World'.

SFU Library is an active partner in research and teaching at the university. As part of this, we work to raise awareness about issues such as authors' rights and copyright transfer agreements; we want to ensure that SFU authors retain control of the distribution of their research results without jeopardizing their publishing record. In addition to purchasing and licensing print, electronic, and other collections, the Library hosts and supports peer reviewed journals through the Open Journals System software, supports colloquia devoted to scholarly communication, and provides an institutional repository to house permanent copies of research results.

In this spirit, we are proud to host this event. So please enjoy and, again, congratulations.

A handwritten signature in black ink that reads "Lynn Copeland". The script is cursive and fluid.

Lynn Copeland
University Librarian and Dean of Library Services

This list comprises publications by SFU students, staff, and current and retired faculty from July 2008 to June 2009.

We regret any discrepancies or omissions.
