Quick Start Guide

I want to do a systematic review
How can Covidence help me?

Covidence is a powerful tool designed to streamline production of high-quality evidence reviews. Working with your academic library, guide your team through the rigorous processes involved in a review.

Before you start
Consult your library to see if Covidence is available.
Get started on your review

- Define your research question
- Assemble your team
- Work with your friendly information specialist to define and run a search strategy
- Get your preliminary list of references
Set up your Covidence project

Get your project and your team set up on Covidence:

Each team member sets up an individual account, then one person sets up the review and invites others to join.

03 Begin screening your references

You’ve set up your review and you’ve run your searches - you’re ready to import your references and start screening with your team!

IMPORT YOUR REFERENCES:  

SCREEN TITLES AND ABSTRACTS:
